This book has disappointed me a lot. There is a lot of hype about this book, but let me tell you it's not worth it. There are silly grammatical mistakes. Seriously, was the writer as well as editor were high on something. Wasted my money on this piece of garbage. Language is deliberately complex. The sentences which could have been written simply are written in a complicated manner with lot of punctuation and prepositions. Don't buy it. Go for Savinder Singh. I know it's bulky but it's better than this overpriced and overhyped peice of garbage which doesn't have some topics of syllabus of geography optional of UPSC CS Exam. One of the most important thing which matters to me is that I prefer to have an index at the end of the book and this doesn't have one, so unprofessional. Waste of money and time.
